

MNRI® Archetype Movement Integration

Course Overview:

Archetype Movement Program techniques work to activate and engage archetype movements that, for various reasons, have remained dormant in the body. Archetype *movements*, less complex in nature than motor reflex *patterns* or *schemes*, are among the first reflexive movements to develop and emerge. Once engaged, archetype movements remain present and active in the body, allowing normal range and flexibility of motion while providing support, balance, and stability for the upper and lower, left and right, and front and back parts of the body. Archetype motor movements also play a subordinate role in the maturation and integration of progressively more complex reflexes, including primary motor reflex patterns, motor reflex schemes, and the development of learned motor skills. If an archetype movement is not appropriately engaged, its impact can be great given the subordinate role it plays in maturation and development. We encourage parents and professionals interested in learning more about the MNRI Method and its various programs to attend this course early on, given the fundamental role it plays in overall development.

The MNRI Archetype Motor Movement course explores:

- The general MNRI Method and the role played by the Archetype Motor Movement Program
- The progression of motor movements beginning in utero and continuing through life
- Archetype motor movements and how they relate to primary motor reflex patterns and important coordination systems
- The role archetype motor movements play in establishing a foundation for motor, communication and cognitive development, and emotional and behavioral regulation
- MNRI techniques designed to assess and facilitate the maturation and integration of archetype motor movements
- How to create MNRI archetype maturation programs for individual clients
- How to incorporate use of the MNRI Archetype Motor Movement course content into daily client and home practice

Course Disclosure: *The Svetlana Masgutova Educational Institute has developed and patented a licensed technology trademarked as MNRI®. Because there are no other like-kind products available, course offerings will only cover information that pertains to the effective and safe use of the above-named products. This presentation will focus exclusively on MNRI® and will not include information on other similar or related products or services.*

OTA does not endorse specific course content, products, or clinical procedures.

Svetlana Masgutova Educational Institute, LLC is approved by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) as a continuing education Approved Provider.
